I. GENERAL INFORMATION

The latest package of Correct Coding Initiative (CCI) edits, Version 16.0, effective January 1, 2010, will be available via the CMS Data Center (CDC). A test file will be available on or about November 2, 2009, and the final file will be available on or about November, 17, 2009.

A. Background: The Centers for Medicare and Medicaid Services developed the National Correct Coding Initiative to promote national correct coding methodologies and to control improper coding that leads to inappropriate payment in Part B claims.
