

News Flash - Your Medicare Payments Could Be Reduced If The Internal Revenue Service (IRS) Needs To Collect Overdue Taxes That You Owe - The Taxpayer Relief Act of 1997, Section 1024, authorizes the IRS to reduce certain federal payments, including Medicare payments, to allow collection of overdue taxes. Should you owe such taxes and your payments are reduced, your remittance advice will reflect a provider level adjustment code (PLB) of "WU" in the PLB03-1 data field. Background

CLIA regulations require a facility to be appropriately certified for each test performed. To ensure that Medicare & Medicaid only pay for laboratory tests categorized as waived complexity under CLIA in facilities with a CLIA certificate of waiver, laboratory claims are currently edited at the CLIA certificate level. CMS identifies CLIA waived tests by providing an updated list of waived tests to the Medicare contractors on a quarterly basis via a Recurring Update Notification. To be recognized as a waived test, some CLIA waived tests have unique HCPCS procedure codes and some must have a QW modifier included with the HCPCS code.

For a list of specific HCPCS codes subject to CLIA, see <http://www.cms.hhs.gov/CLIA/downloads/waivetbl.pdf> on the CMS website.
