**SUPPLEMENTARY INFORMATION:****I. Background**

In FR Doc. 2025–19787 of November 5, 2025, the CY 2026 PFS final rule (90 FR 49266), there were technical errors that are identified in this correcting document.

**II. Summary of Errors**

On pages 49493, 49496, 49501, 49504, and 49506 through 49509, we inadvertently made typographical and technical errors in our discussion of the payment for skin substitutes.

**III. Waiver of Proposed Rulemaking and Delay in Effective Date**

Section 1871(b)(1) of the Social Security Act (the Act) requires the Secretary to provide for notice of a proposed rule in the **Federal Register** and provide a period of not less than 60 days for public comment. In addition, section 1871(e)(1)(B)(i) of the Act mandates a 30-day delay in effective date after issuance or publication of a rule. Section 1871(b)(2)(C) of the Act provides an exception from the notice and 60-day comment period and delay in effective date requirements of the Act, under the good cause standard set forth in 5 U.S.C. 553(b)(B). Section 1871(e)(1)(B)(ii) of the Act provides an exception from the delay in effective date requirements of the Act as well. Section 553(b)(B) authorizes an agency to dispense with normal notice and comment rulemaking procedures for good cause if the agency makes a finding that the notice and comment process is impracticable, unnecessary, or contrary to the public interest, and includes a statement of the finding and the reasons for it in the rule. In addition, section 1871(e)(1)(B)(ii) of the Act allows the agency to avoid the 30-day delay in effective date where the waiver is necessary to comply with statutory requirements or such delay is contrary to the public interest and the agency includes in the rule a statement of the finding and the reasons for it.

In our view, this correcting document does not constitute a rulemaking that would be subject to these requirements. This document merely corrects technical and typographical errors in the payment for skin substitutes provisions of the CY 2026 PFS final rule. The corrections contained in this document are consistent with, and do not make substantive changes to, the policies and payment methodologies that were proposed, subject to notice and comment procedures, and adopted in the CY 2026 PFS final rule. As a result, the corrections made through this document are intended to resolve inadvertent errors in the discussion of the skin substitutes policies so that the CY 2026 PFS final rule accurately reflects the policies adopted therein.

In addition, even if this were a rulemaking to which the notice and comment and delayed effective date requirements applied, we find that there is good cause to waive such requirements. Undertaking further notice and comment procedures to incorporate the corrections in this document into the CY 2026 PFS final rule or delaying the effective date of the corrections are unnecessary because we

are not making any substantive revisions to the CY 2026 PFS final rule, but rather, we are simply correcting the **Federal Register** documents to reflect the skin substitutes policies that we previously proposed, received public comment on, and subsequently finalized in the CY 2026 PFS final rule. Further comment is not needed to inform our decision to rectify the ministerial errors noted in this final rule and correction. For these reasons, we believe there is good cause to waive notice and comment and delay in effective date, even if they were required.
