

Table 1: Medicaid and CHIP: August and September 2017 Preliminary Monthly Enrollment

**Performance Indicator Information:**

The Medicaid and CHIP performance indicators were developed in consultation with states, and are intended to assist in monitoring the eligibility and enrollment processes for Medicaid and CHIP programs in all states. A common set of definitions were developed for consistency in reporting the Medicaid and CHIP performance indicators. More detailed information about the performance indicators, including these standardized definitions can be found in the Methodology: About the Medicaid and CHIP Application, Eligibility Determination, and Enrollment Report at <https://www.medicaid.gov/medicaid/program-information/medicaid-and-chip-enrollment-data/report-highlights/index.html>.

Total enrollment figures represent the total unduplicated number of individuals enrolled in Medicaid and CHIP as of the last day of the reporting period, including those with retroactive, conditional, and presumptive eligibility. These figures are a point-in-time count of total program enrollment, and not solely a count of those newly enrolled during the reporting period. These figures include only those individuals who are eligible for comprehensive benefits (e.g., emergency Medicaid, family planning-only coverage and limited benefit dual eligible individuals are excluded), except as indicated in the state-specific notes included with the tables. Individuals eligible under demonstration projects authorized by section 1115 of the Social Security Act are included as long as the benefits and networks are comprehensive. The enrollment impact of the Medicaid expansion varies; some states expanded coverage to parents and other adults at income levels above the level required under federal law before the Affordable Care Act. For purposes of this report, the term “states” includes the 50 states and the District of Columbia.

Some of the data contained in this table is designated as "preliminary" because it is reported soon after the close of the reporting month and contains few, if any, individuals who become eligible in current month after the close of the month due to retroactive eligibility under Medicaid or similar reasons. When applicable, states report “updated” data one month after the close of the reporting period to account for retroactive enrollment. Updated enrollment data for prior months is available on the Monthly Medicaid and CHIP Application, Eligibility Determination, and Enrollment Reports and Updated Data page at <https://www.medicaid.gov/medicaid/program-information/medicaid-and-chip-enrollment-data/report-highlights/index.html>.

The figures in this table may differ from other published state and national enrollment figures because they include only individuals with comprehensive benefits, except as indicated in the state-specific notes included with the tables. For purposes of this report, the term “states” includes the 50 states and the District of Columbia.

States are at various points in the process of transitioning from their historic definitions to the updated standardized reporting specifications. Where states have provided data that vary from our specifications, we have included that information in the data quality limitations sections below.

**Data Context Notes:**

- For September 2017, CMS is reporting growth of 16,280,257 compared to July-September 2013. This figure is less than the 16,436,349 in net enrollment growth that was included in the Medicaid and CHIP: August 2017 Applications, Eligibility Determinations, and Enrollment Report by over 156,000. This difference does not match the 144,172 decrease in the full report for the August to September 2017 period because the 144,172 figure is based on 51 states, while the 156,000 figure is based on only 49 states. Further, North Dakota revised its August preliminary enrollment figures after discovering a small error.

Table 1: Medicaid and CHIP: August and September 2017 Preliminary Monthly Enrollment

		Enrollment

Table 1: Medicaid and CHIP: August and September 2017 Preliminary Monthly Enrollment

\*\*= The state's Marketplace uses the FFM's information technology platform for eligibility and enrollment functions (the FFM makes either assessments or determinations of Medicaid and CHIP eligibility).

(-)=state has not reported data except as noted below.

Partnership, Plan Management, FFM/SBM-SHOP are all types of FFMs.

Column III is calculated for only those states that reported both August and September 2017 data.

Columns V and VI are calculated for only those states that reported data from both and September 2017 and the July-Sept. 2013 period.

The subtotals for states reporting data from both and September 2017 and the July-Sept. 2013 period exclude CT.

Arkansas	(I), (II)	Includes Private Option enrollees.
California	(IV)	Includes approximately 650,000 individuals transferred from the Low Income
California		Health Program section 1115 demonstration.
Connecticut	(I), (II)	May not include all enrollees.
District of Columbia	(I), (II), (IV)	Includes limited benefit dual eligible individuals and individuals enrolled in the locally funded DC Health Alliance.
Illinois	(IV)	Includes individuals who received retroactive coverage (unlike columns (I) and (II)).
Minnesota	(IV)	May include duplicates (unlike columns (I) and (II)).
New York	(I), (II)	Includes partial benefit program enrollees.
New York	(I), (II)	Includes estimated retroactive enrollment.
North Dakota	(IV)	Data is from July 2013 only.
North Dakota	(I)	Corrected.
Oregon	(IV)	Includes emergency Medicaid population.
Washington	(I), (II)	Includes individuals enrolled at any point during the month.

Columns V and VI are calculated for only those states that reported data from both and September 2017 and the July-Sept. 2013 period.

Totals for states reporting data from both and September 2017 and the July-Sept. 2013 period exclude CT and ME.

Table 2: Medicaid and CHIP: September 2017 Preliminary Monthly Medicaid and CHIP Child Enrollment

**Performance Indicator Information:**

The Medicaid and CHIP performance indicators were developed in consultation with states, and are intended to assist in monitoring the eligibility and enrollment processes for Medicaid and CHIP programs in all states. A common set of definitions were developed for consistency in reporting the Medicaid and CHIP performance indicators. More detailed information about the performance indicators, including these standardized definitions can be found in the Methodology: About the Medicaid and CHIP Application, Eligibility Determination, and Enrollment Report at <https://www.medicaid.gov/medicaid/program-information/medicaid-and-chip-enrollment-data/report-highlights/index.html>.

Child enrollment figures represent the children enrolled in the Medicaid program and the total enrollment for separate CHIP programs as of the last day of the reporting period, including those with retroactive, conditional, and presumptive eligibility. These figures are a point-in-time count of total program enrollment, and not solely counts of those newly enrolled during the reporting period. These figures include only those individuals who are eligible for comprehensive benefits (e.g., emergency Medicaid, family planning-only coverage and limited benefit dual eligible individuals are excluded). States use the definition of "child" as included in the state's Medicaid or CHIP state plan in reporting performance indicator data to CMS, which varies from state to state.

Some of the data contained in this table is designated as "preliminary" because it is reported soon after the close of the reporting month and contains few, if any, individuals who become eligible in current month after the close of the month due to retroactive eligibility under Medicaid or similar reasons. When applicable, states report "updated" data one month after the close of the reporting period to account for retroactive enrollment. Updated enrollment data for prior months is available on the Monthly Medicaid and CHIP Application, Eligibility Determination, and Enrollment Reports and Updated Data page at <https://www.medicaid.gov/medicaid/program-information/medicaid-and-chip-enrollment-data/report-highlights/index.html>.

The figures in this table may differ from other published state and national enrollment figures because they include only individuals with comprehensive benefits, except as indicated in the state-specific notes included with the tables. For purposes of this report, the term "states" includes the 50 states and the District of Columbia.

States are at various points in the process of transitioning from their historic definitions to the updated standardized reporting specifications. Where states have provided data that vary from our specifications, we have included that information in the data quality limitations sections below.

**Data Context Notes:**

- Prior months' total child enrollment figures include data that is reported more than a month after the close of the reporting period, and thus include some children enrolled retroactively. The preliminary September 2017 data included in this report is collected in the month after the reporting period and includes very few (if any) children enrolled retroactively. An updated September figure that includes more retroactively enrolled individuals will be included in the next report in this series.

Table 2: Medicaid and CHIP: September 2017 Preliminary Monthly Medicaid and CHIP Child Enrollment

For general notes on enrollment data, see Table 1: Medicaid and CHIP: August and September 2017 Preliminary Monthly Enrollment.

(-)=State has not reported data or data submitted was incomplete.

States that provide coverage to pregnant women through CHIP and whose child enrollment figures include pregnant women are CO, MO, NJ, RI, VA.

Column VIII is calculated for only those states that reported both September 2017 child enrollment data and September 2017 Total Medicaid and CHIP enrollment data .

Michigan	(I) - (VII)	Does not include share of cost and full benefit 1115 waiver enrollees.
Missouri	(I) - (VII)	Does not include all individuals funded under Title XXI or enrollees in a premium grace period.
New York	(I) - (VII)	Includes estimated retroactive enrollment.
Washington	(I) - (VII)	Includes individuals enrolled at any point during the month.

Table 3: Medicaid and CHIP: September 2017 Monthly Applications and Eligibility Determinations

**Performance Indicator Information:**

The Medicaid and CHIP performance indicators were developed in consultation with states, and are intended to assist in monitoring the eligibility and enrollment processes for Medicaid and CHIP programs in all states. A common set of definitions were developed for consistency in reporting the Medicaid and CHIP performance indicators. More detailed information about the performance indicators, including these standardized definitions can be found in the Methodology: About the Medicaid and CHIP Application, Eligibility Determination, and Enrollment Report at <https://www.medicaid.gov/medicaid/program-information/medicaid-and-chip-enrollment-data/report-highlights/index.html>.

The number of applications received by the Medicaid agency, a separate CHIP agency (if one exists in the state), or both during the reporting period (column (I)), includes applications received online, via mail, in person or phone. These figures do not include applications submitted to a State-Based Marketplace (SBM) or the Federally-Facilitated Marketplace (FFM). Applications requesting financial assistance (Medicaid, CHIP or the Advanced Premium Tax Credit and Cost-Sharing Reductions) that have been received by the SBM during the reporting period are reported in column (II). Please note, information on applications received by (and Medicaid and CHIP assessments and determinations made by) the Marketplaces during the Marketplace open enrollment period is included in the Health Insurance Marketplace's 2016 Open Enrollment Period: Final Enrollment Report (March 11, 2016).

Columns (VI) and (VII) include the total number of individuals determined eligible for Medicaid (under title XIX of the Social Security Act) (column (VI)) and CHIP (column (VII)) during the reporting period based on applications for coverage submitted to any state agency (Medicaid, CHIP or the SBM) or based on administrative determinations authorized under a targeted enrollment strategy approved by CMS. The unit of measurement is a count of individuals (as compared to the application numbers, which may include multiple people in one application). In states receiving account transfers from the FFM in the reporting period where the FFM makes an eligibility assessment (and the state then completes the Medicaid determination), these numbers include determinations made on accounts assessed as eligible and transferred from the FFM. In other states, where the state has delegated to the FFM the authority to make Medicaid eligibility determinations, the report does not include the FFM determinations because the Medicaid/CHIP agency is not performing the determinations.

States are at various points in the process of transitioning from their historic definitions to the updated standardized reporting specifications. Where states have provided data that vary from our specifications, we have included that information in the data quality limitations sections below.

**Data Context Notes:**

- Because of reporting capability, some states included renewals, applications to SBMs, or transfers from the FFM in their Medicaid and CHIP agency application data. See the data quality limitation notes below for state-specific caveats.
- California did not report SBM application data in September, and Tennessee only provided determination data from their CHIP program.

Table 3: Medicaid and CHIP: September 2017 Monthly Applications and Eligibility Determinations

Table 3: Medicaid and CHIP: September 2017 Monthly Applications and Eligibility Determinations

\*\*= The state's Marketplace uses the FFM's information technology platform for eligibility and enrollment functions (the FFM makes either assessments or determinations of Medicaid and CHIP eligibility).

(-)=state has not reported data except as noted below.

Column V is calculated for only those states that report August and September 2017 Applications data (subtotals exclude AR, AZ, DE).

Partnership, Plan Management, FFM/SBM-SHOP are all types of FFMs.

† Reported value is less than 10, excluded from data set to ensure privacy.

Alaska	(I), (III), (IV), (VI), (VII)	Includes renewals converting to MAGI methodology.
Alaska	(VI), (VIII)	Includes CHIP.
California	(I),(IV)	Reflects primarily newly-determined and likely eligible Medicaid applicants,
California		as well as some ongoing caseload activity conducted via the state's health exchange automation system.
California	(VI), (VII), (VIII)	Does not include data from all consortia.
California	(VI)	Reflects primarily newly-determined and likely eligible Medicaid applicants
California		as well as some ongoing caseload activity conducted via the state's health exchange automation system.
California	(VI), (VII), (VIII)	Does not include all eligibility determinations.
Connecticut	(I), (II), (III)	Only includes applications that have been entered into the Eligibility Management System; applications that were received during the month but are still waiting to be screened are excluded.
Connecticut	(I), (III)	May not include all Medicaid applications.
Connecticut	(I), (III), (IV)	Data may include some duplication of applications between Medicaid and CHIP.
Connecticut	(II)	Data may contain duplicate applications.
Connecticut	(II), (VI), (VII), (VIII)	May include some change in circumstance updates that are not new applications for coverage.
Connecticut	(VI), (VII), (VIII)	May not include all Medicaid determinations.
District of Columbia	(I)	Includes SBM data.
District of Columbia	(III), (IV)	Includes renewals.
District of Columbia	(VI)	Includes all determinations (e.g., renewals). Includes CHIP.
Iowa	(VI)	Does not include MAGI determinations.
Iowa	(VI), (VII), (VIII)	Data are incomplete; does not include all determinations.
Iowa	(I), (III), (IV), (VI), (VII)	Includes renewals.
Iowa	(I), (III), (IV)	Includes SSI enrollees automatically enrolled in Medicaid without submitting an application.
Maryland	(VI), (VII), (VIII)	Count is of households, not individuals. Includes State Medicaid Agency data and SBM data from 09/1 - 09/30.
Maryland	(II), (III), (IV), (VI), (VII), (VIII)	Includes some renewals from the SBM.
Michigan	(VI)	Does not include MAGI determinations.
Michigan	(VI)	Includes renewals.
Nevada	(I), (III), (IV)	Includes renewals.
Nevada	(VI)	Count is of households, not individuals. Includes renewals.
New Jersey	(I), (III), (IV)	Includes applications received at county welfare agencies.
New Jersey	(VI), (VII), (VIII)	Does not include all eligibility determinations; county welfare agency determinations are not included.
New York	(II), (III), (IV), (VI), (VII), (VIII)	Includes renewals.
Ohio	(I), (III), (IV)	Includes renewals.
Ohio	(VI)	Includes CHIP.
Ohio	(VI), (VIII)	Includes renewals.
Oregon	(VI)	Count is of households, not individuals.
Oregon	(I), (III), (IV) (VI), (VIII)	Includes MAGI populations only.
Pennsylvania	(I), (III), (IV)	Includes renewals.
Pennsylvania	(VI), (VIII)	Includes renewals.
Pennsylvania	(VI), (VII), (VIII)	Count is of households, not individuals.
Rhode Island	(I), (III), (IV)	May include applications for Qualified Health Plans
Vermont	(III), (IV)	Includes renewals.
Vermont	(VI)	Includes renewals.

Table 3: Medicaid and CHIP: September 2017 Monthly Applications and Eligibility Determinations

(-)=state has not reported data except as noted below.

Column V is calculated for only those states that reported August and September 2017 Applications data (subtotals exclude KS; totals exclude AR, AZ, DE, KS).

Partnership, Plan Management, FFM/SBM-SHOP are all types of FFM.

# Percent change figures in the subtotal of column V exclude TN, which only reports CHIP data.

† Reported value is less than 10, excluded from data set to ensure privacy.

Florida	(I), (III), (IV)	Includes account transfers from the FFM assessed for CHIP.
Florida	(I), (III), (IV)	Does not include applications for partial benefit programs.
Florida	(VI), (VIII)	Does not include determinations for partial benefit programs.
Missouri	(VI)	Includes CHIP.
Missouri	(VI), (VII), (VIII)	Count is of households, not individuals.
South Carolina	(VI), (VII), (VIII)	Includes only determinations made in legacy system, which include MAGI and/or CHIP cases that are in blended non-MAGI households or non-MAGI only households.
South Dakota	(I), (III), (IV)	Includes account transfers from the FFM.
South Dakota	(I), (III), (IV)	Number of applications is undercounted.
South Dakota	(I), (III), (IV)	Includes individuals who are administratively enrolled without submitting an application.
South Dakota	(VI)	Includes CHIP.
South Dakota	(VI), (VII), (VIII)	Count is of households, not individuals.
South Dakota	(VI), (VII), (VIII)	Includes renewals.
Tennessee	(I), (III)	Includes only unborn CHIP children.
Tennessee	(IV)	Data are from CHIP agency only. Medicaid reporting capability in development.
