Fee Schedule Conversion Factor Rises in 2019
The conversion factor (CF) that is used to determine payments under Medicare Part B will be adjusted upward slightly for 2019, meaning a slight overall rise in payments to providers who accept Medicare patients. Read More.

Virtual Care Coverage May Expand
Virtual care—also known as telehealth or telemedicine—leverages technology (such as audio/video applications or patient-accessed health portals) to allow patients quick and convenient remote access to quality healthcare. Now, the Centers for Medicare & Medicaid Services (CMS) is proposing increased coverage for virtual care services. Read More.

Spec Update Changes MIPS Reporting Requirements
An updated version of Quality Measure Specifications supporting documents was released June 25. Clinicians participating in the Merit-based Incentive Payment System (MIPS) and using either a registry or claims submission method will need this information to ensure proper reporting of quality measures on qualified patients.
