AMA on Evaluation and Management Guidelines for 2021

Medical coders who were unsure what documentation non-Medicare payers would expect in light of the Patients Over Paperwork Initiative now have more to go on. The initiative reduced documentation requirements for outpatient evaluation and management (E/M) services (CPT®️ 99201-99215) provided to Medicare Part B patients beginning in 2021. The Centers for Medicare & Medicaid Services (CMS) indicated in their initiative that, although history and exam are an important part of the encounter documentation, they would only use medical decision making (MDM) or time to determine the level of encounter. However, it is still consider a clinical trial because of its relatively recent development. Learn More »

Assistant at Surgery Modifiers Require Specific Documentation
Payers no longer consider the assistant surgeon’s name in the header only as sufficient documentation. They want the body of the operative note to indicate what the assistant surgeon contributed to the surgery. They also want documentation in the operative report to explain why an assistant surgeon was used at a teaching institution rather than a qualified resident. Learn More »
