

Disclaimer

Decisions should not be made based solely on information within this study guide. All judgments impacting career or an employer must be based on individual circumstances including legal and ethical considerations, local conditions, payer policies within the geographic area, and new or pending government regulations, etc.

AAPC does not accept responsibility or liability for any adverse outcome from using this study program for any reason including undetected inaccuracy, opinion, and analysis that might prove erroneous or amended, or the coder's misunderstanding or misapplication of topics. Application of the information in this text does not imply or guarantee claims payment. Inquiries of your local carrier(s)' bulletins, policy announcements, etc should be made to resolve local billing requirements. Payers' interpretations may vary from those in this program. Finally, the law, applicable regulations, payers' instructions, interpretations, enforcement, etc may change at any time in any particular area. Information in this program is solely based on the CPT®, ICD-10-CM, and HCPCS Level II rules and regulations.

AAPC has obtained permission from various individuals and companies to include their material in this manual. These agreements do not extend beyond this program. It may not be copied, reproduced, dismantled, quoted, or presented without the expressed written approval of AAPC and the sources contained within.

No part of this publication covered by the copyright herein may be reproduced, stored in a retrieval system, or transmitted in any form or by any means (graphically, electronically, or mechanically, including photocopying, recording, or taping) without the expressed written permission from AAPC and the sources contained within.

Clinical Examples Used in this Book

AAPC believes that it is important in training and testing to reflect a coding setting as accurate as possible to students and examinees. All examples and case studies used in our study guides and exams are actual, redacted office visit and procedure notes donated by AAPC members.

To preserve the real-world quality of these notes for educational purposes, we have not rewritten or edited the notes to the stringent grammatical or stylistic standards found in the text of our products. Some minor changes have been made for clarity or to correct spelling errors originally in the notes, but essentially, they are as one would find them in a coding setting.
